911

911 GT3 RS

General

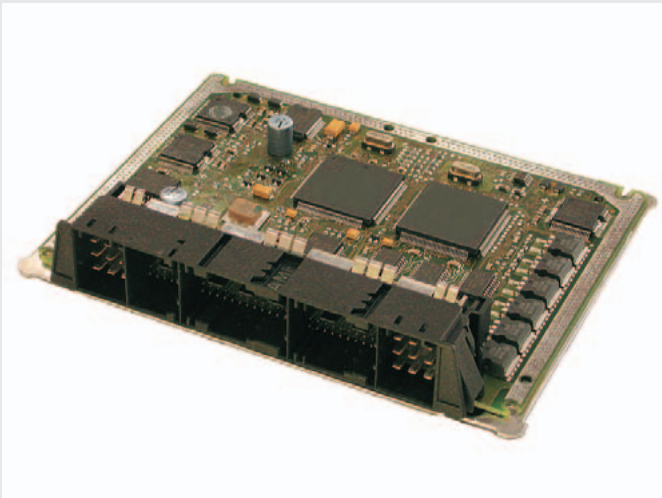

The following describes the modifications of the 911 GT3 RS compared with the 911 GT3 model year 2004.

2470 ME 7.8 Motronic control unit

The data record "GT3 RS EU4" is available for programming the Motronic control unit.

Contents

General	5
ME 7.8 Motronic control unit	5
Air ducts of intake air system	5
Exhaust tailpipes	6
Spark plugs	6

2_11_01

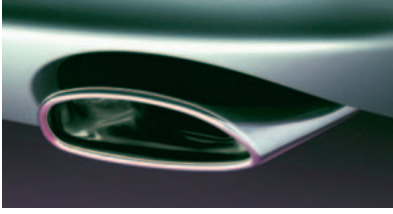

24 Air ducts of intake air system

The 911 GT3 RS has modified air ducting of intake air from the rear lid to the air cleaner. A RAM air inlet on the rear lid improves engine induction at higher speeds through ram induction.
